**Session I – Right heart failure: An old scourge with new options**  
*Moderators: Riti Patel, MD, FACC and Linda D. Gillam, MD*

<table>
<thead>
<tr>
<th>Time</th>
<th>Title</th>
</tr>
</thead>
</table>
| 7:30 am | When right goes wrong: Right heart failure identification, etiologies, chronic management, and challenges  
  *Anjali Vaidya, MD*                                                                 |
| 7:50 am | “Righting” a sinking ship: Right heart support outcomes using percutaneous and surgical options  
  *George P. Batsides, MD, FACC*                                                     |
| 8:10 am | The forgotten valve and a population in need: Understanding and visualizing the tricuspid regurgitation death spiral  
  *Linda D. Gillam, MD*                                                                |
| 8:30 am | The future is nearer than you think: Novel non-surgical therapies for tricuspid regurgitation  
  *William A. Gray, MD*                                                               |
| 8:50 am | Finally breathing easier: Updates on pulmonary arterial hypertension therapeutics and outcomes  
  *Anjali Vaidya, MD*                                                                   |
| 9:10 am | The gift that keeps giving: Chronic thromboembolic pulmonary hypertension (CTEPH)  
  *William R. Auger, MD*                                                               |
| 9:30 am | Case in a box  
  *Gwen McNeill, MD*                                                                    |
| 9:50 am | Discussion                                                                 |

Session II – Social media and medicine  
Moderators: Riti Patel, MD, FACC and Jennifer Kraschnewski, MD, MPH  
e-moderator: David A. Cohen, MD, FACP

10:30 am  Social media: Best practices and privacy concerns  
Jennifer L. Kraschnewski, MD, MPH

10:50 am  Social media: How do I get started?  
David H. Wiener, MD

11:10 am  Career and practice development: Effective use of social media  
Ritu Thamman, MD

11:30 am  Social media and medicine: The legal landscape  
Daniel F. Shay, Esq

11:50 am  Discussion

12:00 pm  Lunch

Session III – Keynote address

12:45 pm  Speaker introduction

12:50 pm  Keynote address – When generations connect: Effective communication within the hierarchy of medicine  
Scott Zimmer

1:50 pm  Break

Session IV – The aorta valve and aortic pathology  
Moderators: Joseph E. Bavaria, MD and Roberto Rodriguez, MD

2:00 pm  TAVR 2019 update in the U.S.: Trends and insights from the STS/ACC TVT National TAVR Registry  
Joseph E. Bavaria, MD

2:20 pm  The music changes—and so must the dance: Managing aortic stenosis in a TAVR environment and the implications for screening, risk stratification, treatment options and timing  
Carlos Ruiz, MD

2:40 pm  Volume leads to value? The economics of TAVR  
Roberto Rodriguez, MD

3:00 pm  Elusive but essential: Diagnosing low gradient aortic stenosis  
Sandra V. Abramson, MD
Session IV (continued) – The aorta valve and aortic pathology
Moderators: Joseph E. Bavaria, MD and Roberto Rodriguez, MD

3:20 pm  A tale of (just) two leaflets: The management of the bicuspid aortic valve and its associated pathologies
           Roberto Rodriguez, MD

3:40 pm  Break

4:00 pm  Here we go again! Treating the failed bioprosthetic valve
           Scott Goldman, MD

4:20 pm  What’s all the flap about? New treatment considerations for type B aortic dissection
           Basel Ramlawi, MD, FACC

4:40 pm  No-go no more? Innovative non-surgical approaches to aortic arch zone
           Joseph E. Bavaria, MD

5:00 pm  Discussion

5:20 pm  Wrap-up and preview of Saturday program

5:30 pm  Welcome reception

7:00 pm  Faculty dinner
Day 2  
Saturday, November 2, 2019

**Session V – Congenital heart disease in the adult**  
*Moderators: Robert J. Sommer, MD and Yuli Y. Kim, MD*

- **8:00 am**  
  Somebody call a plumber! Congenital heart disease syndromes and physiology  
  *Robert J. Sommer, MD*

- **8:20 am**  
  Traditional surgical corrections for congenital heart disease  
  *Stephanie Fuller, MD*

- **8:40 am**  
  How many roads…? Congenital coronary anomalies in the adult (and what to do about them)  
  *Sara L. Partington, MD*

- **9:00 am**  
  Shocking but true: Electrophysiological sequela and their management in the adult with congenital heart disease  
  *Robert H. Pass, MD*

- **9:20 am**  
  Making magic: Transcatheter approaches to in the adult with congenital heart disease  
  *Matthew A. Crystal, MD*

- **9:40 am**  
  Case in a box  
  *Robert J. Sommer, MD*

- **10:00 am**  
  Discussion

**10:20 pm**  
Break

**Session VI – Heart failure with preserved ejection fraction**  
*Moderators: William A. Gray, MD and John M. Clark, DO*

- **10:40 am**  
  More than “just” diastolic dysfunction: Heart failure with preserved ejection fraction (HFpEF)  
  *Preethi R. Pirlamarla, MD*

- **11:00 am**  
  Seeing the un-seeable: What are the best options for imaging HFpEF?  
  *Katie M. Hawthorne, MD*

- **11:20 am**  
  Underdiagnosing amyloid? New treatment options drive the imperative to be correct  
  *John M. Clark, DO*
Session VI (continued) – Heart failure with preserved ejection fraction
Moderators: William A. Gray, MD and John M. Clark, DO

11:40 am  Interventions into a “medical” condition: Device approaches to HFpEF
           Nicholas J. Ruggiero, II, MD

12:00 pm  Case in a box
           William A. Gray, MD

12:20 pm  Discussion

12:40 pm  Wrap-up and adjourn

12:50 pm  Lunch – grab and go
